

Participant # :

Observer : _____

Observation Sheet

Initially, how far was the participant away from the motion sensor when performing tasks? _____ metres

Did the participant adjust their distance away from the motion sensor during any tasks? ☐ Yes ☐ No

Task 1: Pushing Balloons

Ask the participant to try and push balloons around the screen.

Was the participant able to intuitively push balloons around the screen without requiring assistance? ☐ Yes ☐ No

Did it prove difficult for the participant to push balloons around the screen? ☐ Yes ☐ No

Did the participant push a balloon onto another screen? ☐ Yes ☐ No

Comments:

Task 2: Customising Balloons

Ask the participant to try and customise a balloon on screen by using a paint bucket.

Was the participant able to intuitively customise a balloon on screen without requiring assistance? ☐ Yes ☐ No

Was the participant able to customise a balloon in the way in which they wanted on their first attempt? ☐ Yes ☐ No

Did the participant customise a balloon by using two different paint buckets? ☐ Yes ☐ No

Comments:

Task 3: Popping Balloons

Ask the participant to try and pop a balloon on screen (using a stopwatch, measure the time taken for the participant to successfully pop their first balloon).

Was the participant able to intuitively pop a balloon on screen without requiring assistance?

☐

Yes

☐

No

How long did it take for the participant to successfully pop their first balloon?

minutes

seconds

Comments:

Task 4: Interacting with Content

After popping a balloon, ask the participant to close the content box shown on screen.

Was the participant able to intuitively close the content box without requiring assistance?

☐

Yes

☐

No

Was the participant able to close the content box before the timer ran out on their first attempt?

☐

Yes

☐

No

Optional

After popping a balloon, ask the participant to capture the Quick Response (QR) code the content box displays on screen (requires a device equipped with a camera and a reader application installed).

Was the participant able to capture the QR code before the timer ran out on their first attempt?

☐

Yes

☐

No
